Projects

SATELLITE CHAT APP - MOBILE APP DEVELOPER
Github: @DelgaMatt/Satellite-Chat-App
- A Mobile Dart/Flutter Application that allows users to create a profile and communicate with one another. All communications are stored on the Firestore Cloud.
- The application provides a user-friendly interface and displays a text bubble communication format. Utilizes Firebase Authentication and Database for user data.

SHERPA STUDIOS - FULL STACK DEVELOPER
Github: @DelgaMatt/Software-Sherpas-Extended
Deployed App: https://sherpa-studios.herokuapp.com/
- A MERN-stack application that displays the portfolio, events, and most recent songs of up and coming artists signed to Sherpa Studios. Artists will have the option to create a portfolio page upon registration and can access their personal information and update their portfolio and upcoming events from their dashboard. Utilizes Spotify API.
- This application utilizes JWT and Bcrypt for artist authentication and stores all artist data on MongoDB by means of GraphQL.
- Role: MongoDB implementation, React routing and graphQL API, User Authorization, artist portfolio template design

BEER 'N' BITES - BACK END DEVELOPER
Github: @delgamatt/beer-n-bites
Deployed App: https://beer-n-bites.herokuapp.com/
- A Full-stack application that displays generated food and beer pairings. Provides an intuitive and dynamic UI built with Handlebars.js. Users have the option to save pairings upon registration and can access their pairings and dish recipe information from their dashboard. Utilizes PUNK API and Spoonacular API.
- Built with a NodeJS and Express back end and MVC architecture, all user food pairings are stored on a mySQL database. Uses Bcrypt for authentication and dotenv for API key security.
- Role: Database implementation, Express routing and server-side restfulAPI, Authorization, Carousel logic, UI

Previous Experience

FINE DINING + COCKTAIL SERVER / BARBACK / LEAD PREP COOK
2012 - PRESENT
- Demonstrated proficiency in various roles in the hospitality and customer service industry, including barbacking, serving, bussing, counter service roles, and lead kitchen positions.
- Deliver a wide range of knowledge on menu items and exceptional food and beverage pairings.
- Collaborate and communicate effectively with co-staff and guests, contributing to a positive and organized atmosphere.
- Manage time efficiently in multicourse meals while overseeing customers and running side work.
- Maintain stock of supplies and contribute to the overall efficiency of house operations.
